

“On mute!”

Ariana Ananda Muresan

Binding activity of the mind
Frequencies, waves, electric thunder
Short cuts short-circuited
Wires winded re-winded
High connectivity
Low creativity
A positive low
Under the spell of IT
A negative high
At the end of times
Explosion
Trapped in a battery cell
Your mind is not well
Disruption, confusion,
Information overload
Overridden, under-ridden
I'll put you on mute,
I'll put you on hold.
Your heart is on mute
Your mind is on hold
If you only had time

“On mute!”

To do it again,

To try and retry

and Click OK.

The time in this life

Is up when you're down

Short circuit

Game over!

You lost...
